The Secretary
Petroleum and Natural Gas Regulatory Board
1st Floor, World Trade Centre,
Babar Road, New Delhi-110001

Subject: Single tariff for HVJ and DBNPL

Respected Sir / Madam,

We would like to introduce ourselves as M/s Asahi India Glass Limited and located in Roorkee (Uttarakhand) and we welcome the PNGRB initiative for combining the tariffs as it will reduce our manufacturing cost.

We use RLNG to manufacture the Float Glass and RLNG forms a major cost of Float glass manufacturing with Fuel constituting nearly 30% of production cost.

We are consuming RLNG being supplied through the HVJ/DBNPL. However, being located far away from Dahej, we are at a disadvantage as our competitors in the western region as we are paying much higher multiple pipeline tariffs. As the competition is very high, we are facing problems in the market.

Therefore, it is our humble request that any step in this regard which will reduce the tariff will be helpful to our industry and benefit our business.

Thanking You,

Yours faithfully,

For **ASAH I INDIA GLASS LTD**
