Subject: Views on Draft Amendment – Imbalance Management Services

Ref: PNGRB/COM/2-NGPL/Tariff (2)/2012 (P-xxx) dated October 17, 2020

Dear Madam

This is with reference to the Public Notice web-hosted by the Honourable Board for views/comments from stakeholders on the Draft Amendment to Petroleum and Natural Gas Regulatory Board (Imbalance Management Services) Regulations, 2016.

We thank the board for considering views of industry stake holders. We understand that all the stakeholders in the industry will be benefitted by the proposed amendment.

We submit our inputs on the proposed amendment as follows:

a. **Parking Service / Lending Service**

Deferred Delivery Service (DDS) is offered to shippers currently by transporter and the charges are equivalent to 25 percentage of respective zonal tariff. The charges proposed in amendment, fifteen rupees per MMBTU are higher compared to DDS service being offered currently. In view of the same we request board to kindly consider lower charges for the same.

b. **Trading Service**

For trading services and optimization of imbalance by the shipper, information regarding imbalance position of other shippers will be required. In absence of the same, trading services may not be effective. Transporter will have to develop mechanism to share information for trading opportunities to its shippers on regular basis.

We hope you will find our inputs constructive and helpful and we remain available for further deliberations.

Thanks & Regards,

Bhavesh Vaghela
