Sir,

This refers Public Notice ref. PNGRB/COM/1-CGD Tariff(1)/2015 dated 23.9.2020. Our comments are as under :

1. While it is clear from the methodology stated under Schedule that all the financial data submitted by the entity in support of their tariff determination would be examined for reasonableness by PNGRB, this needs to be also clarified in sub-Regulation 4(4), wherein the primary onus of examining and assessing the data uploaded by the entity seems to rest with all other entities and PNGRB's role is only to examine any complaint filed to the Board by entities on the data submitted by the entity. It is submitted that same modality as has been given under the Regulations for determining tariff for natural gas pipelines be stated here also.
2. Sub-Regulation 4(5) states that financial adjustments on account of change in transportation rates for CGD / CNG shall be carried out for the year subsequent to Board's order. It is submitted that more clarity on how this will be implemented may be given duly considering that recovering dues from retail CNG customers in the CGD would not be possible.
3. Clause 3 of Schedule regarding Computation of Net Fixed Assets and Normative Working Capital : it is stated that cost of acquisition of assets and operating cost would be assessed normatively by Board. It is submitted that guidance on the normative cost be shared by PNGRB. Also, after approval of each case, costs elements approved for each CGD may be web-hosted for guidance and information of entities.

With Regards,

Debasish Nanda
