5	Views and suggestions related to:	
a)	Petroleum Products Pipeline proposed by the entity for laying, building, operating or expanding Petroleum and Petroleum Products Pipeline	<p>Vide letter PNGRB/Auth/3-PPPL(02)/2022 dated 22.08.2022, PNGRB has issued Grant of Authorization to IndianOil to lay, build, operate or expand ATF Pipeline from Jawaharlal Nehru Port Trust (JNPT) to Navi Mumbai International Airport (NMIA).</p> <p>This Authorized pipeline of IndianOil is a 22 km long, 14" OD pipeline with a capacity of 4.45 MMTPA.</p> <p>Considering that expected industry volume of ATF is approximately 2.5 MMTPA by 2049-50, IndianOil's Authorized pipeline from JNPT to NMIA has sufficient capacity to meet the entire demand of ATF at the Airport.</p> <p>Since IndianOil's pipeline is a common carrier pipeline having sufficient margin over and above the industry demand, EoI proponent can get access to the capacity in JNPT-NMIA ATF Pipeline as per PNGRB's Access Code.</p> <p>IndianOil has already taken investment approval for their pipeline and substantial investment has also been made so far. If another ATF pipeline to NMIA is authorized by PNGRB, it would be injustice to IndianOil as it would lead to idling of the capacity of the pipeline being constructed by IndianOil with due authorization from PNGRB. This is not in line with the spirit of PNGRB norms for avoiding infructuous investments by optimum utilization of infrastructure of petroleum and petroleum products pipelines.</p> <p>In view of the above, PNGRB is humbly requested that no other ATF pipeline to NMIA to be allowed which would be a wastage of a national asset as well.</p>
