Dear Madam,

✓  
20/8  
JA (PKJ)

This is in reference to PNGRB Public Consultation Document dated 02<sup>nd</sup> August 2019 regarding comments on the tariff review of GAIL's Dadri Bawana Nangal Natural Gas Pipeline (DBNPL) and Chainsa-Jhajjar-Hissar Natural Gas Pipeline (CJHPL).

EP  
20/8/19

PIL comments on the same are as below:

→ AAC (HK)

1. Regarding the option II – Combined tariff for HVJ, DBNPL and CJHPL it is suggested that we may also review impact of combining of network on other regulations like capacity regulations with regard to declaring capacity of the combined network, declaring the point of origin for the combined network in Authorisation regulations for deciding the Zones, etc.
2. In order to deliberate above points and share our views in detail, we would like to participate in the open house, to be conducted by PNGRB on the subject matter.

Thanking you

Yours faithfully

Neeraj Pasricha
