No.: Infra/PL/Bid/NGPL/KVNPL/2015/01 14.12.2015

To

All Prospective Bidders

Sub: Addendum related to Kakinada-Vijayawada-Nellore Natural Gas Pipeline (Bid No.: BID/NGPL/08/2015/1/KVNPL)

Sir,

Further to the clarifications issued on 19.11.2015 and the public notice dated 20.11.2015, as per the query received from Synergy Global Steel Private Limited (SGSPL) vide letter dated 04.12.2015 (Annex-1) related to the bids invited for development of Kakinada-Vijayawada-Nellore natural gas pipeline, following additional clarifications are being issued:

S. No.	Query Raised	Clarification
(A)	PNGRB is requested to provide the information/data (*possible points of interconnection e.g. Gadimoga, Kakinada Junction etc., pipeline system configuration at these points and the prevailing process data viz. gas pressure, flow and temperature*) pertaining to the existing pipeline systems of RIL, GAIL etc. in the region through which the proposed pipeline is traversing, so as to enable the bidders to arrive at their most optimum design.	It is clarified that as per Clause 17.2.3 of Application cum Bid Document (ACBD), "*It is the bidder's responsibility to obtain all information related to the present gas supply position and existing and future customers, if any falling along the route of the proposed natural gas pipeline*". Further, as regards inter-connection with other common carrier/contract carrier pipelines, the provisions of the PNGRB (Access Code of Conduct for Common Carrier or Contract Carrier Natural Gas

		Pipelines) Regulations, 2008 shall be applicable. However, in view of the requirement of the proposed pipeline to pass through MLV-5 of RGTIL's East-west pipeline at Boddanapalle (Krishna district), the current prevailing process data at MLV-5 of RGTIL's East-west pipeline has been obtained from RGTIL and is at Annex-2, which may be used by the bidder.

2. The above clarifications shall constitute a part of the Application-Cum-Bid Document and shall be duly signed and submitted along with the bid document by the authorized signatory of the bidder.

Yours faithfully,

Encl: As above

14/12/2015

(Arvind Kumar)

Annex 1

04.12.2015

To,

The Secretary,

Petroleum and Natural Gas Regulatory Board

1st Floor, World Trade Centre,

Babar Road. New Delhi-110001

Sub. : PNGRB Bidding for KRVON Natural Gas Pipeline - Request for information on available Pressure in the existing major gas pipeline systems in KG Basin area i.e. RGTIL and GAIL to explore the interconnection possibilities with the proposed pipeline

Ref. : Bid Doc. No: PNGRB BID/NGPL/08/2015/1/KVNPL

Dear Sir,

This is in reference to the captioned subject and the above referred bid document.

With regard to the above, as you would kindly be aware that we are really keen on participating in bidding for the said pipeline and are currently in the process of preparing our bid for the same.

As you are kindly aware that the route of the proposed pipeline, as finalized by PNGRB, inter-alia, passes through the districts of East Godavari, West Godavari and Krishna in the state of AP, which are already having existing and operational trunk line networks of other operators viz RIL and GAIL.

In order to arrive at the most optimum design for the proposed pipeline system, bidders would need to explore the possibilities of suitable interconnections of these existing pipeline systems with the proposed pipeline and build the same into their design. From the regulatory perspective also, more of interconnections with existing systems for any new proposed pipeline, would be very much in sync with the desired ultimate objective of moving towards a National Gas Grid.

SYNERGY GLOBAL STEEL PRIVATE LIMITED
A-2, MOHAN CO-OPERATIVE INDUSTRIAL ESTATE, MATHURA ROAD, NEW DELHI-110044
Tel: 32957555, 32997555 Fax: 011-41428521 • E-Mail : Synergysteels55@gmail.com
CIN: U27106DL2005PTC143027

In this context and in order to be able to carry out this exercise, bidders would need relevant data / information on this. The basic pre-requisite information required for this would be :

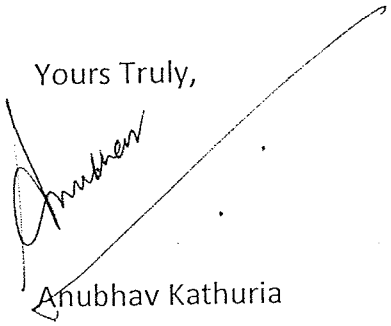
- Identifying possible points of interconnection, say RIL (Gadimoga), GAIL (Kakinada Junction) etc.
- P/L system configuration at these points
- the prevailing process data viz. gas pressure, flow and temperature

In this regard, we would wish to hereby submit that the above referred information / data pertaining to the existing pipeline systems of RIL, GAIL etc. in the region , may please be provided by PNGRB, so as to enable the bidders to arrive at their most optimum design, which would improve the overall economics of the project.

An early action on the above would be highly appreciated.

Thanking You,

Yours Truly,



Anubhav Kathuria

(Authorised Signatory)

For Synergy Global Steel Private Limited

Annex-2

Subject: **RE: Information related to EWPL** Date: 12/11/15 11:13 AM
To: vinay@pngrb.gov.in From: Neeraj.Pasricha@ril.com

Dear Sir,
With reference to the mail below, may please note following:

The prevailing process data (based on last three month average) at MLV-5 of East-West Pipeline is as below:

a. Pressure: 55-60 Barg

b. Flow: 6.0 – 8.0 MMSCMD

c. Temperature: 30 Deg C.

It may kindly be noted that the current prevailing pressure/flow conditions are on account of prevailing flow conditions at existing connected upstream gas source(s) and may undergo further change over time.

In view of above, the battery limit conditions (incl. pressure, flow and temp) for any connectivity at MLV-5 in future can be finalized with shipper(s) at the time of connectivity since the same will be dependent upon the prevailing flow conditions at EWPL MLV-5 at that point of time as well as volume flow requirement of Shipper(s).

We hope that you will find the details in order.

Regards

Subject: Information related to EWPL

Dear Sir,

As discussed with you over phone, please provide the prevailing process data viz. Pressure (Inlet/Outlet), flow and temperature at MLV-5 of RGTIL's East-west pipeline at Boddanapalle (Krishna district).

The above information is required at the earliest for the purpose of current bidding process underway for Kakinada-Vijayawada-Nellore natural gas pipeline.

Regards
Vinay Krishna Srivastava
Deputy Director
